

CCR Webstore - Cleaning Swabs for Your Application

Our #1 Selling Swab

[Texwipe TX761](#) - The Alpha Swab with Long Handle is the swab you want for cleaning hard to reach areas like print heads.

Solvent Resistant Nitrile Gloves

[Microflex SEC-375](#) Powder-free Nitrile Gloves - Handle solvents with care.

Selecting the Right Cleaning Swab

Test, Test, Test

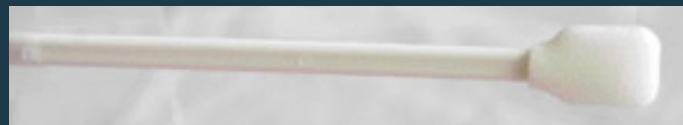

What do you need in your cleaning swab? Long handle? Low lint? Solvent resistant? ESD? Foam tip? Precision? All of the above? Selecting the ideal swab for your specific cleaning application may not be easy. Sometimes the best way is to sample a few to see which one will work best. If you require samples to test a product for your application, please let us know. info@ccrwebstore.com

Solvent Cleaning Swabs

Looking for Solvent Resistivity?

CCR Webstore has a selection of swabs from several manufacturers that are indicated for solvent resistivity.

Cleantex CT707A Rectangular Head Foam Swab 5" - "for cleaning with solvents", also tested and used to clean Roland Versacamm print heads.

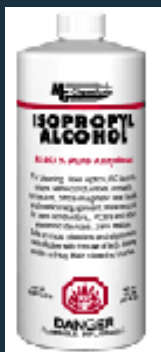

Chemtronics CF3050 Foamtips #130 - "Lint-free, solvent resistant, highly absorbent, and non-abrasive"

MG Chemicals MG-811-100 Double Headed Cotton Swab, Wood Handle - "compatible with all solvents"

MG Chemicals Isopropyl Alcohol

[MG Chemicals Cleaner](#) - In convenient 1L bottles.

Texwipe TX762 Absorbond Swab 6" - "excellent chemical resistance".

Wash Bottles

[Polyethylene Laboratory Wash Bottles](#) - Dispense solvents safely with this leak-proof easy-to-squeeze bottle.

Cotton, Foam, and Polyester Swabs

What Material is Right for Your Cleaning Swab?

cotton swabs

An economical choice. Low-lint, solvent resistant, stiff wooden handle and made with pharmaceutical grade cotton.

Chemtronics CT5000 Cottontips

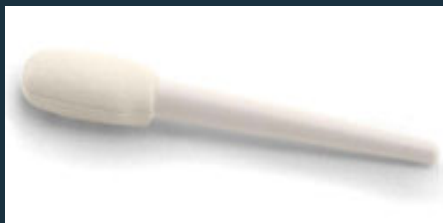

foam swabs

Versatile swabs for many applications including small precision and strong industrial uses. Known for its chemical resistivity, foam swabs are used in the electronics industry, the printing industry, as well as pharmaceutical, laboratory and medical fields.

Chemtronics CFP50 Foamtips Pro - tough scrubbing on one end and soft absorbency on the other.

CT706A Keyboard Swab

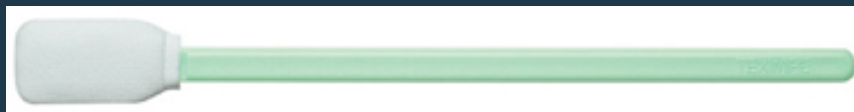

[Cleantex CT706A](#) - Specially designed for keyboards, short flexible handle to get in between keys, and strong closed foam head for strong scrubbing.

polyester swabs

(hydroentangled, cleanroom-laundered polyester swabs) - feature low residue levels, strong solvent resistivity, and no adhesives. Polyester swabs are used in cleanroom and laboratory sampling applications.

Texwipe TX714A Large Alpha Swab

Chemtronics Head Cleaner II

Chemtronics ES820L - highly recommended for removing soil and residues from magnetic heads & optical heads. Use with one of our foam swabs!
